#AmyForPresident

Hello! My name is Amy and I am currently a third year student and part of the representation team at CardiffMet and I am running to be your Students' Union President! I am campaigning for President to make changes to improve the student experience at CardiffMet and to make the changes that students want to see.

Improve student health and wellbeing!

1. Create more space for students to be able to take breaks throughout the day. This will allow students to take a break from studying and rest when they need it.
2. As you've probably seen, there have been a number of campus canine events taking place across both campuses. I want to increase the number of these events last year, especially during stressful times for students.
3. Exercise is an important part of helping your health and wellbeing! Currently, the university gyms are only payable yearly or on a day-by-day basis. I am aiming for students to be able to pay monthly for gym membership on campus making it a more manageable cost!
4. I want to make it faster and simpler for students to get the help and support they need and make it easier for students to find out information, quickly if they need it!

Make day-to-day student life simpler!

1. Lots of students need to print as part of their course, but it can be so expensive! I would like for students who need to print as a requirement of their course, to have a printing allowance and for students who don't have printing as a requirement, for cheaper printing costs!
2. Ever find your laptop running low on battery but there's not plug point around to charge it? I want to change this! My aim is to increase the number of plug points across both campuses, making it easier for students to work wherever they feel most comfortable!
3. Most students find that there are a number of times throughout the year when you have a crazy week of assessments! It's stressful, chaotic and it doesn't seem necessary. I want to change this to create a better balance of assessment throughout the year an no bunching!

Improve public transport services!

1. Do you ever find that your lecture finishes and your racing to catch the bus that leaves campus on the hour and then have to wait 30 minutes for another bus? I aim to improve the bus service so that it suits student timetables and to make them more frequent, so you aren't waiting around!
2. Currently the NextBike services on campus are very busy and have been very popular! Because of this, I want to increase the number of NextBike stations, on and around campus! This will make it easier and faster for student to get from A to B!

Create a community at CardiffMet!

1. Lastly, I would like to help create a better community at CardiffMet. Whether this be through events and activites, or just peer support. It's important that students feel they belong at CardiffMet and this is something I want to work on.

Thank you for taking the time to read my manifesto! I hope that you decide to support me in my campaign!

Amy Fox!
