

Hello! My name is Delphi and I'm a third year Fine Art student and have been in the representation structure of our Student's Union for the last two years. I'm running to be the next President of our SU and I'm campaigning with Will Treasure for Vice President, to improve student experience for everyone, focusing on developing our community and the wellbeing of the student body.

Improving Student Wellbeing

- Run self-care workshops that are inclusive and cater to different students
- Free tampons & pads available for students
- Fight for more counsellors on campus
- Continue my campaign to add inclusive pronoun and gender options to the university database & student systems
- Improve the accessibility of the university including disabled parking bays
- Introduce a quiet hour for events like freshers fayre
- Host a Re-Freshers week in January to support student networking, wellbeing and engagement with both campuses
- Maintain current programs that benefit student wellbeing i.e. campus canines

Developing Our Community

- Develop sustainable action at the university
- Build and develop our international partnerships
- Host more events and activities on both Cyncoed and Llandaff campus
- Include and promote local businesses at our events
- Promote a sense of community within the university and Cardiff as a city

Developing the relationship between Students Union and the University

- Improve the connections between the university as an institution and the Student's Union as ways of supporting and creating networks for students
- Give the university staff and lecturers a greater understanding of what the SU has to offer and encourage them to push the opportunities and activities that we offer
- Work to improve the costs of food on both campuses and create more money-saving offers
